

Spectre Round Adjustable Downlight LL-9230-W

Technical Data

Description:

The Spectre Round Adjustable recessed downlight has a deep set lamp position for maximum visual comfort and is adjustable up to 30°. Engineered specifically for the Hero LED engines, the Spectre Round Adjustable has a specially designed snap and lock system and comes with interchangeable reflectors and a glass lens - ensuring optimal glare control.

Designed for easy installation and maintenance - the reflector is removable and the lamp holder has a special push and release system for access after installation.

Requirements:

Spectre Round Adj Black Reflector - LL-9230-R-B
 Spectre Round Adj White Reflector - LL-9230-R-W

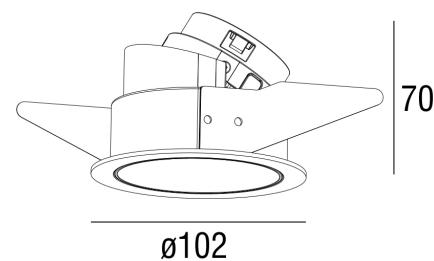

White Reflector LL-9230-R-W

Black Reflector LL-9230-R-W
